Introduction

Hamlet Metal Cover + Bluetooth Keyboard combines in one product a Bluetooth keyboard and a solid aluminum cover compatible with all 10.1" Tablet PC with dimensions of 261 x 174 mm. The Tablet with these specifications will perfectly accommodated in the cover/keyboard protecting the tablet's screen during transport. The keyboard integrates a tilt stand for maximum comfort of use when typing and the rechargeable lithium-polymer battery ensures prolonged use with only one charge.

Features
- Aluminum cover with built-in stand for 10.1" Tablet PC
- Integrated Bluetooth keyboard with rechargeable lithium battery
- Bluetooth interface version 4.0
- Bluetooth range up to 10 meters
- Italian QWERTY layout 82 keys
- Micro USB port (for recharge)
- Status LED indicators
- Standby: about 40 days
- Recharging time: 3-4 hours
- ON/OFF power switch
- Dimensions: 265 x 177 x 11.3 mm
- Weight: 275 g

Package content
- Bluetooth Cover/Keyboard
- USB recharging cable
- User's manual

System requirements
- Tablet PC with Bluetooth function
- Tablet PC with Android or iOS operating system

Keyboard layout

The integrated Bluetooth keyboard has a 82 keys QWERTY layout based on Italian language.
In the case of using a system with a different language, you must set the system language to **Italian** so that special characters typed on the keyboard appear correctly on the screen.

Important Note
The multimedia keys such as the monitor's brightness, volume and playback may work on some devices only.

Product overview

1. Release lever for tablet stand
2. Power/Charging indicator (Yellow/Green)
3. Bluetooth status indicator (Blue)
4. Micro USB port (power/charge)
5. ON/OFF power switch
6. Bluetooth pairing button

Installation and use

The following steps refer to tablets with Android system. For other types of tablet, please refer to the instructions for the Bluetooth connection provided with the product documentation.

Note: It is recommended that you fully charge the battery the first time you use the keyboard.

Connecting the keyboard to the tablet (Android)
1. Turn on the keyboard by using the switch on the right side.
2. Enable the Bluetooth function of the tablet you wish to connect by opening the **Settings** menu and selecting **Bluetooth** in the **Wireless & Networks** section.
3. Press the Bluetooth pairing button on the side of the keyboard. The led Status indicator will begin to flash.
4. When the tablet detects the keyboard, select it from the list of Bluetooth devices.
5. The system will show a random PIN number.
   Type in the PIN number on the keyboard and press **Enter** to complete the pairing.
6. The keyboard is now successfully connected to the tablet.

Note: If there is no signal for 10 minutes or the connected device is turned off, the keyboard will go into Standby. Press any key to wake up the keyboard.

Charging the keyboard
When the battery charge is low, the power indicator flashes yellow.
1. Plug the small end (micro USB) of the charging cable into the micro USB port on the keyboard.
2. Plug the other end of the cable into a USB port on your computer. The LED charging indicator will light up.
3. The keyboard is fully charged when the led indicator turns green.

Troubleshooting

In case it is impossible to connect the keyboard to your tablet, try these steps to resolve the problem.

1. Make sure you have the Bluetooth function installed and set up properly on your tablet. Refer to your tablet's documentation for details.
2. Make sure the keyboard is in a range of 10 meters from the tablet.
3. If the tablet is connected to other Bluetooth devices, you may need to disconnect some before connecting the keyboard.
4. If you have changed some Bluetooth settings on the tablet, try to reconnect the keyboard to the tablet.
5. Make sure both batteries of tablet and keyboard are enough charged.

If you are unable to resolve the problem, contact technical support through the Hamlet website at hamletcom.com.
