1. Introduction

The USB 2.0 to LAN Adapter allows your computer instantly connect to a 10/100Mbps network through simply a USB port. The adapter is compatible with both desktop and notebook PC and supports 10/100Mbps operation with automatic speed detection.

Features

- Compliant with USB 2.0 and USB 1.1 specifications
- Compliant with IEEE 802.3 (10Base-T) and 802.3u (100Base-TX) standards
- Supports both full-duplex and half-duplex operations
- Powered by USB port. No external power adapter required
- Plug & Play installation

System Requirements

- One available USB port
- Operating system: Windows 7/8/10, Mac OS X 10.5 or above, Linux (kernel 2.6.14 or above), Android 4.0

Package Contents

- USB 2.0 Ethernet Adapter
- User manual

2. Installation

1. Connect USB connector to the USB port of your computer.
2. Operating system detects and install the device automatically.
3. Connect a network cable (not included) to the adapter's Ethernet (RJ45) port to access the local network and the Internet.

Important Note

Some versions of Windows may require driver installation for the device to function properly. The driver can be installed from the virtual CD utility that appears when the device is connected to the computer.

3. Specifications

- Network Standards:
IEEE 802.3: 10Base-T
IEEE 802.3u: 100Base-T
- Data Transfer Rates:
Ethernet: 10Mbps (Half/Full Duplex)
Fast Ethernet: 100Mbps (Half/Full Duplex)
- Data Bus: USB 2.0 (1.1 compliant)
- Network Interface: female RJ45 jack
- LED Indicator for power and data connection
- Power Management: suspend mode, hibernation mode
- Dimensions (without cable): 60 x 22 x 16 mm (L x W x H)
- Cable length: 170 mm
- Weight: 20 g
- Operating Temperature: 0 to 70 °C
