- Do not leave or store the device in the car. Temperatures inside parked cars easily exceed the above temperature ranges.

INTRODUCTION

Hamlet Wireless Smart TV Keyboard is a compact keyboard with a touchpad and two buttons for convenient control of the mouse able to communicate wirelessly thanks to the 2.4GHz RF wireless technology. It is the ideal solution to comfortably control devices such as Smart TV, Computer, Tablet PCs and Smartphones. The keyboard works with two common AAA batteries that provide extended use of the device and includes a nano USB receiver for the wireless connection.

Features
- 2.4 GHz wireless technology up to 10 meters coverage
- Nano USB wireless receiver
- QUERTY keyboard with Italian layout
- Built-in touchpad with 2 mouse buttons
- ON/OFF power switch
- Powered by AAA batteries (included)
- Keyboard dimension: 366 x 121 x 18 mm
- Compatible with Windows, Mac, Android, iOS

Package contents
- Wireless keyboard with touchpad
- Nano USB receiver
- 2 AAA batteries
- User manual

LED indicators
1. Numeric Keypad
2. Caps Lock
3. Battery
4. Touchpad Area
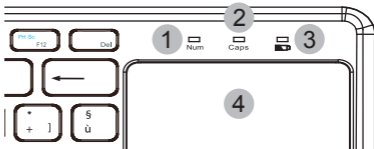

Numeric Keypad
Press Fn+F11 keys to enable numeric keypad.
Led will be blue. Press keys combination again to disable the numeric keypad, led will turn off.

Caps Lock
Press the Caps Lock key to enable uppercase writing mode, the blue indicator light turns on.
Press it again to turn off the led and return to lowercase writing.

Battery
When the keyboard is turned on, the red led lights up for a few seconds.
When battery voltage is lower than 2.1 Volts, the red led flashes.
We recommend replacing the battery as soon as possible.

Power Switch

Touchpad Mouse Buttons

Left Mouse Button   Right Mouse Button
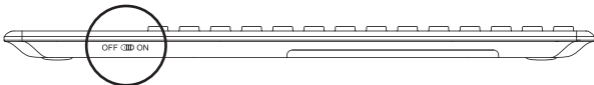

KEYBOARD CONNECTION

1. Plug the USB receiver into USB port of your Computer/Smart TV. The USB receiver is located next to the battery compartment.

2. Insert the two batteries according to the polarity signs then turn ON the keyboard using the power switch.
3. If red led flashes, the connection is successfull and the keyboard is ready for use.

Note: If connection fails, press ESC+K keys to force pairing.

Energy Saving (Stand-by)

Keyboard will enter stand-by mode if not used for 10 minutes. Press any key to wake up the keyboard again.

If you do not plan to use the keyboard for a prolonged period of time, we recommend to turn it off and disconnect the USB receiver from the device in which it is inserted.

FUNCTION KEYS

The Fn key located at bottom left of the keyboard allows you to activate the function keys identified by text and symbols printed in blue.
Hold down the Fn key on the keyboard and press the desired function key to type the character or activate the function.
