IMPORTANT NOTE ABOUT POWER DELIVERY (PD)
The docking station's Power charging functionality is intended for use with USB Type-C laptops that support Power Delivery technology.
Some laptops may partially support this functionality, while others may require the use of their original power supply.
Please contact your device manufacturer to confirm charging support using a third-party USB Type-C device.

2. Product Overview

1. USB Type-C Power Delivery port*
2. HDMI video connector
3. Gigabit Ethernet (RJ-45) port
4. USB 3.0 port
5. USB Type-C connector

3. Installation

The multiport adapter is automatically recognized by the operating system once connected to your laptop's USB Type-C port.

1. Connect the USB-C Multiport adapter to your laptop using the USB Type-C connector.
2. Connect an external monitor to HDMI port. The screen may temporarily go black or flicker during this process.
3. Connect the USB peripherals and the Ethernet cable to the corresponding connectors on the device.
4. If you have a USB-C power adapter, you can connect it to the adapter to provide laptop charging (60W max).

Note: To ensure full adapter functionality, your laptop's USB-C port must support USB Power Delivery and DP Alt Mode.
* The USB-C port does not support data transfer.
